SKILLS

ABOUT ME

I am a passionate, vibrant, goal-oriented, entry-level Software Developer who approaches each day with an unwavering commitment to success and I am looking for a position where I can learn on the job. I am a recent graduate from CodeSpace Academy, where I completed a Software Development course, I am proficient in full-stack JavaScript and I am committed to learning new technologies and languages.. My attention to detail, adaptability, and dedication to innovation set me apart in the technology industry. I am excited to continue contributing to the ever-evolving world of software development, pushing boundaries, and achieving new heights of excellence.
